

# CropKarb

 CANGROW

**CropKarb** (8-0-18) is a true biostimulant product. Using “next generation” technology, it is designed to enhance root activity while improving bloom set as well as grain sizing and bulking.

**CropKarb** works by delivering DeltAg’s Active Catalyst Chemistry with a supplemental mobile carbon source directly to the fruiting part of your crop. It is formulated with necessary *plant catalysts, amino acids, vitamins, and enzymes.*

**1** litre of **CropKarb** delivers the equivalent activity of **3** great products:

- .5 L **Perc**—to enhance plant vigour and root activity
- .15 L **Boron** Plus—to help set and hold more grain
- .8 L **NutriK**—to improve grain sizing and bulking

This combination product has been proven with great success for many years on **corn, soybeans, wheat, vegetables, & edible beans!**

**Custom Solutions.**

**Proven Results.**
